PROFESSIONAL SUMMARY

Human-Computer Interaction (HCI) student at Umm Al-Qura University with a solid foundation in user research, usability evaluation, interface design, user-centered design, interaction design, and prototyping using Figma. Focused on designing intuitive, user-centered digital experiences that improve usability and help users achieve their goals efficiently. A fast learner with strong analytical skills, adaptability, and a collaborative mindset.

RELEVANT EXPERIENCE

Rakkiz – Smart Focus Assistant for Students

Feb 2026 – Present

Umm Al-Qura University

- Contributed to designing a student-focused digital solution that helps improve focus and reduce digital distractions.
- Conducted journey analysis and developed UX journey maps to identify user pain points and enhance the overall experience.
- Conducted usability testing using the Think Aloud method, analyzed user behavior to identify usability issues, and supported design improvements.

HungerStation Grocery Experience – UX Case Study

Apr 2025 – May 2025

Umm Al-Qura University

- Developed user personas to represent target users based on research data.
- Applied card sorting to structure content in alignment with user expectations.
- Conducted usability testing to assess ease of use and identify potential improvements.
